International Council for Research and Innovation
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

September 2009

Forthcoming Meeting

W078 - Information Technology for Construction

CIB W078

26th International Conference
Managing IT in Construction

1-3 October 2009, Istanbul, Turkey

The Istanbul Technical University and the International Council for Research and Innovation in Building and Construction are pleased to announce the CIB W078 Conference: Managing IT in Construction, Istanbul, Turkey, 1-3 October 2009.

The conference will bring together international experts from academic and industrial communities to create an environment for the exchange of their research, experience and best practice and to debate future strategies and solution in order to manage construction for tomorrow. The conference aims to contribute to the wider debate on the important issue of Managing IT in Construction.

Conference Topics

Researchers, academicians and practitioners in the AEC/FM industry are invited to submit papers on the themes given below. The papers can focus on design, construction or facility management:

- Managing IT Strategies
- Mobile Computing
- Situation Awareness and Sensing Technologies
- Product/Building Information Modeling
- Process Modeling
- Virtual Reality and Augmented Reality
- Automated Approaches in Construction
- Data, Information and Knowledge Management
- IT Supported Architectural and Engineering Design
- 4D/nD Modeling, Visualization and Simulation Techniques
- Communication and Collaboration Technologies
- Visual Pattern Recognition Technologies
- Model Based Management Tools and Systems
