

PROCEEDINGS OF THE 26TH INTERNATIONAL CONFERENCE ON IT IN CONSTRUCTION &  
1ST INTERNATIONAL CONFERENCE ON MANAGING CONSTRUCTION FOR TOMORROW,  
ISTANBUL TECHNICAL UNIVERSITY, ISTANBUL, TURKEY, 1–3 OCTOBER 2009

# Managing IT in Construction / Managing Construction for Tomorrow

*Editors*

Attila Dikbas, Esin Ergen & Heyecan Giritli  
*Istanbul Technical University, Istanbul, Turkey*

 CRC Press  
Taylor & Francis Group  
Boca Raton London New York Leiden

CRC Press is an imprint of the  
Taylor & Francis Group, an informa business  
A BALKEMA BOOK

## Table of Contents

Preface	XIII
Organizing Committee	XV
Scientific Committee	XVII

### **CIB W078 Managing IT in Construction**

#### *Model based management tools*

A Unified Construction Project Management Arena <i>D. Ye &amp; T. Froese</i>	3
Analyzing capacity of BIM tools to support data use across project lifecycle <i>J. Lucas, W. Thabet &amp; D. Bowman</i>	11
A product/process model-based system to produce work instructions <i>C. Mourges &amp; M. Fischer</i>	21
An integrated 3D simulation framework for earthwork processes <i>Y. Ji, A. Borrmann, E. Rank, J. Wimmer &amp; W.A. Günther</i>	29
Technical challenges for Integrated Design and Delivery Solutions <i>R. W. Amor</i>	37
A declarative approach to cross-domain model analysis <i>U. Hartmann &amp; P. von Both</i>	45
Lightweight capture of as-built construction information <i>E.W. East, N. Nisbet &amp; J. Wix</i>	53
Teaching integrated scope-cost methods with model-based tools <i>F. Peterson, M. Fischer, T. Wingate, O. Seppänen, T. Tutti &amp; R. See</i>	63
IFC support for model-based scheduling <i>M. Weise, T. Liebich, J. Tulke &amp; P. Bonsma</i>	75
Extended model-based master scheduling for building projects using advanced line of balance <i>C.E. Firat, D. Ardit, J.P. Hämäläinen &amp; J. Kiiras</i>	85
A pattern-based approach for facilitating schedule generation and cost analysis in bridge construction projects <i>I.C. Wu, A. Borrmann, E. Rank, U. Beißert &amp; M. König</i>	93
Dynamic system architecture for energy efficient building operation: A case study of Kiptas residential building <i>H.U. Gökc, K.U. Gökc, D. Browne &amp; K. Menzel</i>	101

<i>Communication and collaboration</i>																									
Engineering communication - current view on past and future <i>R. Klinč, M. Dolenc &amp; Ž. Turk</i>	113	Creating new ways of learning in architecture and building: MACE project <i>A. Fuertes, M. Casals, N. Forcada, M. Gangolells &amp; X. Roca</i>	267																						
The future scenario of creating a digital SME community in the Irish construction industry <i>A.V. Hore, R.P. West &amp; A. Redmond</i>	121	Interoperability challenges of an engineering software provider <i>T. Rácz &amp; T. Olofsson</i>	275																						
Designing IT services for the construction industry: Lessons learnt for selection of validation techniques <i>A. Guerriero, L. Johannsen &amp; S. Kubicki</i>	131	A data-warehouse architecture supporting energy management of buildings <i>H.U. Gökçe, Y. Wang, K.U. Gökçe &amp; K. Menzel</i>	287																						
Semantic tags for collaboration in construction formalized within a social network framework <i>I.A. Mutis</i>	141	Characterizing the non-value-added relocation of non-bulk components on storage yards <i>D. Grau</i>	293																						
		Classification of building element functions <i>K.A. Jørgensen</i>	301																						
		Factors affecting the learning process of professionals in architectural design firms <i>G.B. Ozturk-Barlak, D. Ardití, H.M. Gunaydin, S. Kale &amp; I. Yitmen</i>	309																						
<i>Data acquisition and storage</i>																									
A comparative study on the use of laser scanners for construction quality control and progress monitoring purposes <i>G. Atasoy, P. Tang &amp; B. Akinci</i>	153	Developing a forecasting model for the prediction of inflation rates for use in life cycle cost analysis <i>T. Çelik, Y. Baalousha &amp; F. Ibisevic</i>	319																						
Improving highway asset management with RFID technology <i>J.M. de la Garza, N.J. Yates &amp; C.A. Arrington</i>	163	Identification of reusable information in construction firms <i>Z.L. Ma &amp; N. Lu</i>	323																						
Assessing the need for storing data on Radio Frequency Identification (RFID) tags <i>E. Ergen &amp; G. Güven</i>	171																								
Leveraging materials tracking technologies to improve industrial project performance <i>D. Grau, C.H. Caldas, C.T. Haas, P.M. Goodrum &amp; J. Gong</i>	181	<i>Architectural design</i>																							
		User driven innovative building design <i>P. Christiansson, K.B. Sørensen, K.G. Steffensen &amp; K. Svist</i>	333																						
		Configuration with architectural objects in industrialised house-building <i>F. Wikberg, A. Ekholm &amp; P. Jensen</i>	341																						
		A pattern based 3D modeling tool <i>D. Chitchian &amp; S.I. Sarıyıldız</i>	351																						
		Redefinition of geometrical components to specify kinematically undetermined behaviour <i>H. Hofmeyer &amp; F. Gelbal</i>	359																						
<i>Information and knowledge management</i>																									
Ontology-based dynamic process support on the example of defect management <i>P. Katranuschkov, K. Rybenko &amp; R.J. Scherer</i>	191	<i>Managing IT strategies</i>																							
A web-based system for quality inspection and defect management of industrial building construction <i>N. Forcada, E. Margalida, A. Fuertes, M. Casals, M. Gangolells, X. Roca &amp; M. Macarulla</i>	203	Analysing building performance data for energy-efficient building operation <i>A. Ahmed, J. Ploennigs, Y. Gao &amp; K. Menzel</i>	211	Business-driven IT strategy in multi-business and multi-national companies <i>R. Myllymäki</i>	371	Building product catalogues on the Semantic Web <i>J. Beetz &amp; B. de Vries</i>	221	The drivers and barriers for the development and applications of project collaboration systems in the Chinese construction industry <i>Z. Ren, T.M. Hassan &amp; F. Yang</i>	381	Specifications for a social and technical environment for improving design process communication <i>R.R. Senescu &amp; J.R. Haymaker</i>	227	Influences on the adoption of BPM/BIM: An Australian perspective <i>G. Brewer, T. Gajendran &amp; C. Beard</i>	391	Assessing organizational semiotics for IT systems design: Improving information exchange processes across construction project stakeholders <i>W.H. Collinge, C.F. Harty, K. Liu &amp; Y. Tang</i>	239	Progression in IT adoption and stage of IT maturity in the construction sector of Singapore <i>B.H. Goh</i>	401	BPM-driven construction client requirements change management <i>A.K. Jallow, P. Demian, A.N. Baldwin &amp; C.J. Anumba</i>	249	Cultural analysis for ICT integration: Case study analysis of a construction project <i>T. Gajendran &amp; G. Brewer</i>	407	Foundation for development of computable rules <i>E. Hjelseth</i>	257	A theoretical and practical assessment of open source development and dissemination of construction IT solutions <i>T. Hartmann &amp; N. Hartmann</i>	417
Analysing building performance data for energy-efficient building operation <i>A. Ahmed, J. Ploennigs, Y. Gao &amp; K. Menzel</i>	211	Business-driven IT strategy in multi-business and multi-national companies <i>R. Myllymäki</i>	371																						
Building product catalogues on the Semantic Web <i>J. Beetz &amp; B. de Vries</i>	221	The drivers and barriers for the development and applications of project collaboration systems in the Chinese construction industry <i>Z. Ren, T.M. Hassan &amp; F. Yang</i>	381																						
Specifications for a social and technical environment for improving design process communication <i>R.R. Senescu &amp; J.R. Haymaker</i>	227	Influences on the adoption of BPM/BIM: An Australian perspective <i>G. Brewer, T. Gajendran &amp; C. Beard</i>	391																						
Assessing organizational semiotics for IT systems design: Improving information exchange processes across construction project stakeholders <i>W.H. Collinge, C.F. Harty, K. Liu &amp; Y. Tang</i>	239	Progression in IT adoption and stage of IT maturity in the construction sector of Singapore <i>B.H. Goh</i>	401																						
BPM-driven construction client requirements change management <i>A.K. Jallow, P. Demian, A.N. Baldwin &amp; C.J. Anumba</i>	249	Cultural analysis for ICT integration: Case study analysis of a construction project <i>T. Gajendran &amp; G. Brewer</i>	407																						
Foundation for development of computable rules <i>E. Hjelseth</i>	257	A theoretical and practical assessment of open source development and dissemination of construction IT solutions <i>T. Hartmann &amp; N. Hartmann</i>	417																						

Factors supporting information and communication technologies on construction projects <i>D. Zuppa &amp; R.R.A. Issa</i>	425	Utilizing 4D technology in supply chain management <i>J. Porkka, J. Kojima, K. Rainio &amp; K. Kähkönen</i>	561
A case study on the strategic impact of information technology in the Turkish construction industry <i>P. Irlayici &amp; E. Tas</i>	431	Drawing architecture using manga techniques <i>Y. Qu &amp; M.A. Schnabel</i>	567
Exploring context-awareness in the construction logistics services delivery <i>B. Omar, S. Abu Hassan &amp; T. Ballal</i>	439	An innovative approach for generation of Virtual Construction Model and a time location plan for road construction projects <i>R.K. Shah, N. Dawood &amp; J. Dean</i>	577
A review of the artificial intelligence applications in construction dispute resolution <i>D. Ilter &amp; A. Dikbas</i>	449	Agent-based modeling of user movements: A case study in a museum building <i>G. Çağdaş</i>	587
Business benefits framework of enterprise systems in construction: An exploratory factor analysis <i>O. Tatari &amp; M.J. Skibniewski</i>	455	<b>Sustainability</b>	
The impact of information technology in facilitating communication and collaboration in Libyan public organisations - a literature review <i>S.A. Bezweek &amp; C.O. Egbu</i>	461	Implementation of semi-automated energy performance simulation: Building geometry <i>V. Bazjanac</i>	595
<b>Building information modeling</b>		Enabling sustainability through SOA within the AEC/FM domain <i>A. Dikbas, P. Ercoskun &amp; K. Ercoskun</i>	603
Automated construction schedule creation using project information model <i>A. Mrkela &amp; D. Reboli</i>	473	A concept for IT-supported carbon neutral renovation <i>H. Yin, M. Otreba, L. Allan &amp; K. Menzel</i>	611
Check-mate: Automatic constraint checking of IFC models <i>R.A. Niemeijer, B. de Vries &amp; J. Beetz</i>	479	ICT for energy efficiency: The case for smart buildings <i>J. Ye, T.M. Hassan, C.D. Carter &amp; A. Zarli</i>	621
Developing a multidisciplinary process view on IFC standardization <i>M. Laakso</i>	487	<b>MC4T Managing Construction for Tomorrow</b>	
An assessment of building information modeling value and use <i>B. Becerik-Gerber &amp; S. Rice</i>	493	<b>Construction industry competitiveness</b>	
Modelling of buildings and projects with utility assessment <i>C. Jarsky</i>	499	Evaluation of Turkish construction market by analyzing international contracting services <i>E. Tas &amp; P. Irlayici</i>	631
Maintenance scheduling based on the analysis of building performance data <i>H.U. Gökçe, P. Stack, K.U. Gökçe &amp; K. Menzel</i>	507	Improving quality to ensure competitiveness by a change management system <i>G.O. Alptekin</i>	639
Software architecture for mobile mixed reality and 4D BIM interaction <i>M. Hakkarainen, C. Woodward &amp; K. Rainio</i>	517	A conceptual model to determine the role of suppliers in generalizing innovations in the construction industry <i>Y. Erbil &amp; N. Akincitürk</i>	649
<b>Visualization and simulation</b>		<b>Innovative approaches to construction</b>	
ForBAU—The virtual construction site project <i>A. Borrmann, Y. Ji, I.-C. Wu, M. Obergrießer, E. Rank, C. Klaubert &amp; W. Günthner</i>	527	Causes of materials waste in the Palestinian construction industry <i>A. Enshassil, S. El-Moghanji, P.E. Mayer &amp; J. Zimmermann</i>	657
Considering quality aspects for construction scheduling using constraint-based simulation <i>U. Beißert, M. König &amp; H.-J. Bargstädt</i>	535	The contemporary methods of Waqf land development in Malaysia <i>S. Mokhtar &amp; M. Ibrahim</i>	665
Using discrete-event simulation for process modeling: Case of work structuring of asphalt highway construction operations <i>G. Polat &amp; Y. Buyuksaracoglu</i>	545	Predicting the significance of environmental issues in construction operations <i>G. Polat &amp; Y. Tatar</i>	673
Development of hybrid simulation and genetic algorithms system for solving complex crew allocation problems <i>A. Al-Bazi, N. Dawood &amp; Z. Khan</i>	553	Public procurement of architectural and engineering services: Fee and quality <i>J. Sporröng, J. Bröchner &amp; A. Kadefors</i>	683
		BIM implementation for an architectural practice <i>Y. Arayici, P. Coates, L. Koskela, M. Kagioglou, C. Usher &amp; K. O'Reilly</i>	689

Vocational language needs of European construction companies <i>E. Oral, P.M. Rogerson-Revell, J.P. Pantouvakis, M. Bechter, M. Oral, A. Kılıç, G. Mistikoglu, E. Erdiş, O. Mistikoglu, S. Huskinson, V. Archou &amp; A. Panas</i>	697
A review of utilization of soft computing methods in construction management <i>S.U. Dikmen, O. Ates, R. Akbiyikli &amp; M. Sonmez</i>	703
A model of leadership in architectural offices for tomorrow <i>E. Kasapoğlu</i>	711
Integrated learning in a Virtual Construction Management Services Company (VCMSC) <i>W. Alsakini, J. Kiiras &amp; P. Huovinen</i>	721
A framework for analyzing the impact of operational coefficients on excavation productivity <i>A. Panas &amp; J.P. Pantouvakis</i>	729
Innovation value chain in construction <i>B. Ozorhon, C. Abbott &amp; G. Aouad</i>	739
Exploring the issues for future of construction IT <i>B. Erdogan, C. Abbott &amp; G. Aouad</i>	747
<i>Best practices in international construction</i>	
Implications of culture in dispute resolution in international construction joint ventures <i>P. Ates &amp; H. Giritli</i>	757
Construction and development: Analyzing the construction sector in Turkey and EU countries <i>B. İlhan &amp; H. Yaman</i>	765
Recent trends in tall building design <i>A. Sev &amp; A. Özgen</i>	771
An effective site organization structure for fast-track construction projects <i>S.U. Dikmen &amp; R. Akbiyikli</i>	783
Convergence of construction costs in the single European market <i>C. Langston &amp; R. Best</i>	789
Factors influencing rent arrears in public housing in Malaysia: A proposed research framework and methodology <i>N.A. Salleh, N. Yusof &amp; A.G. Salleh</i>	797
Better informed decisions through evidence-based design <i>R. Codinhoto, S. Wu &amp; M. Kagioglou</i>	803
<i>Health and safety</i>	
The dynamic model of the cyclical style of safety management <i>T. Chinda</i>	811
An investigation of Turkish construction workers' knowledge on health and safety practices <i>G. Arslan &amp; S. Kivrak</i>	819
Construction accident in relation to safety factor in design - A proposed model <i>A. Che Ahmad, I. Bahari, M.F. Mohd Zain, A. Jaafar &amp; O. Mat Piah</i>	825
Organisational structure of health and safety management system: A case study in Turkey <i>R. Akbiyikli, S.U. Dikmen, D. Eaton &amp; S. Korkmaz</i>	835
<i>Sustainable construction</i>	
Comparative review of widely used building environmental assessment tools and suggestions for developing countries <i>A. Sev</i>	845
Creating a digital SME community in the Irish construction industry <i>A.V. Hore, R.P. West &amp; A. Redmond</i>	855
Conflicting sustainable development drivers and client interventions: A case study of the elevate SME supply chain <i>W. Swan, R. Stewart &amp; N. Naimuddin</i>	861
